

**Job Title:** Technology Partner

**Job Description:**

Snell & Wilmer seeks to hire a partner or senior counsel whose primary practice is in the technology sector. Specifically, the ideal candidate will have robust transactional experience in one or more of the following areas: (i) software development and licensing agreements, such as SaaS / IaaS, cloud computing, and open source / creative commons, (ii) data privacy and security compliance, (iii) fintech, blockchain, and cryptocurrency, (iv) artificial intelligence and big data, or (v) technology-centric mergers and acquisitions diligence. The successful candidate will join a thriving national practice. Although a partial book of business is preferred, it is not required, as the firm expects to direct significant internal opportunities to you. This is an exciting opportunity to join a growing, national law firm, which takes pride in its friendly, collegial culture and has no debt. The successful candidate could find a home in any of our markets, but would ideally sit in San Diego, Los Angeles, Washington D.C., Orange County, Denver, Salt Lake City, or Phoenix. Leadership qualities are expected; bar entry in the market in which you live is required.

The salary for this position will depend on factors including book of business, anticipated yearly billable hours, and experience.

We are currently not accepting resumes from professional recruiters.
